**Subject:** Re: Pre-Final Certification Inspection

I think we are trying for 11/14, Friday at 10 am. Becky, can you confirm if that works?

Thanks,  
Amy

Any idea when your team will be able to confirm the pre-final certification inspection date from the options identified below as well as the number of agency attendees? I need to schedule a boat operator for the requested waterside portion of the tour so need to have this information soon.

**Subject:** RE: Pre-Final Certification Inspection

Please let me know if either November 10 or 14 work for the Pre-Final Certification Inspection at JFC and PPM. Right now anytime between 9:30 am - 4 pm is open.

Thanks,  
Amy

Amy

As we gear up for the upcoming pre-final certification inspection, we're wondering what the status is of the results of the performance standard evaluations. The SOW specifies that they be provided to EPA at least 7 days prior to the inspection itself. Given the Z-layer data we saw earlier (unvalidated)- we need to see the final data to see if it meets the performance standards, which are defined in the Action Memorandum.

And I am sure you all have verified this- so apologies if this is redundant- but PPM has completed its decon of the transloading facility, correct? We would expect that the pre-final certification inspection will include both the EMJ removal area and the PPM Transloading Facility. EPA is requesting a boat tour of the EMJ removal area in addition to a walking tour of the final site.

I'll be working from home tomorrow afternoon. Please feel free to contact me with questions.

Becky
